

Book Mark Greeting Card

The Greeting Card layout at right fits a #10 business envelope. Copy it onto card stock and color as desired.

Using craft knife, cut along solid line at right. >
Fold card along center dotted line.

Cut out window in the Gothic Arch.

Cut out knight. Run a threaded needle through top of knight's helmet to create a hang tag.

Using clear tape, adhere thread to back side of arch so knight faces front and dangles freely in the window.

Alternative: Glue motto below to card so it is visible through window. Use knight as gift tag.
